Certificate Programme in Business Analytics

- The programme is designed on a schedule that minimizes disruption of work and personal pursuits.

- The programme is a combination of classroom and Technology aided learning platform. ISB's 1st hybrid model programme. Participants will typically be on campus for a 5 day schedule of classroom learning every alternate month for a span of 12 months, which would ideally be planned to include a weekend.

- With 430+ contact hours, the programme is rigorous and in-depth.

- In the month where there is no classroom connect; the classes will be conducted over a technology aided learning platform. The contact hours in this platform would be 24 hours a month and every alternate month

- CBA is a rigorous and challenging programme. The schedule will include full days of teaching and evenings will be used for guest lectures, projects, and group work. Participants will be required to stay on campus during those classroom days.

- **Industry Speakers/Visits:** An integral part of the CBA is interactions with industry speakers and regular visits to relevant organisations throughout the course.

- **Simulations:** Simulations help maximise on classroom learning as the decisions that the participants have to make in these simulations replicate the kind of decisions they would encounter in their respective organisations. Action Learning: Action learning is an important pedagogical tool that is designed to give participants a chance to practice their management theories in real life scenarios.

- There will be an action learning project, which will be performed individually or under a mentor/ guide from ISB.

- **Faculty:** Professors from global B-schools including ISB, SME (Subject matter experts) & Industry practioners teach for the programme.

- **Curriculum:** The curriculum has been designed in tandem with inputs from Industry and academia. The course has an academic rigor and candidates are graded accordingly.
