# Anil Chaudhry

Country President & Managing Director at Schneider Electric ,  
Greater India  
Delhi

## Summary

My journey with Schneider Electric began in 2010, when I joined the Global Sales team as a Senior VP. I was a part of the Leadership team, which was instrumental in achieving synergies across various domains within the Schneider Electric eco-system, with strong focus on growth in sales and efficient channel management.

In 2013, I was given the responsibility of leading the Schneider Electric business in India and in the past 7 years, the organization has seen strategic growth across verticals.

My philosophy of driving organizational growth is by leveraging exceptional talent, growing sales, and strategically moving the brand ahead with support from local innovations and home-grown IT expertise.

Within the company I am an ambassador of Digitization because innovations in digital are making a profound impact on improving the standard of living and quality of life globally, leading to a smart and sustainable living for more than 4 billion people who have access to the World Wide Web.

I had the honour of receiving a few prestigious awards which I deeply cherish . To name a few : France's highest civilian distinction - Chevalier de la Legion d'Honneur (Knight of the Legion of Honour) by the President of the Republic of France, recognising my significant contributions towards Indo-French economic and business development. Horasis-KPMG award for Indian Business Leader of the Year for 'Business Transformation'.

I have the honour to sit on the Board of Governors at Thapar University of Engineering and Technology, my alma mater.

Today, Schneider Electric is leading the Digital Transformation of Energy Management and Automation in Homes, Buildings, Data Centres, Infrastructure, and Industries. And all of this has been possible because we firmly believe that great people and partners make Schneider Electric a great company!
