

Anand Vishwanathan

A Product Manager for Internet and E-Commerce products, Anand Vishwanathan worked with a leading IT Solutions provider for four years before graduating from the Indian School of Business, Hyderabad in 2006.

His passion to learn new software packages and invent tools has allowed him to master MS Excel, discover its hidden features and develop interesting applications with it. With his previous employer, he was regarded a Subject Expert in Microsoft and automation, having developed tools using MS Excel for automating different activities across the entire Software Development Life Cycle.

Microsoft Excel for Managers was conceived by Vishwanathan while at the ISB. He has been conducting this workshop for three years now – at the ISB and at Cognizant Technology Solutions. Anand also offers *Macros with MS Excel*, a workshop that allows participants to grasp the basics of programming and familiarize themselves with macros. This has been successfully delivered at Irevna, a leading investment research firm and also at an equity research firm in Pune.
