MESSAGE FROM SENIOR ASSOCIATE DEAN

I am proud to introduce ISB's Fellow Programme in Management (FPM) designed to train scholars for faculty positions in top business schools. The programme will incorporate best practices, skills, knowledge and inputs from INSEAD, whose entire set of PhD courses will be available to our FPM students. INSEAD's PhD placements in the best schools worldwide attest to its quality. If you are interested in an academic career as a faculty member in top business schools, consider our Fellow Programme in Management.

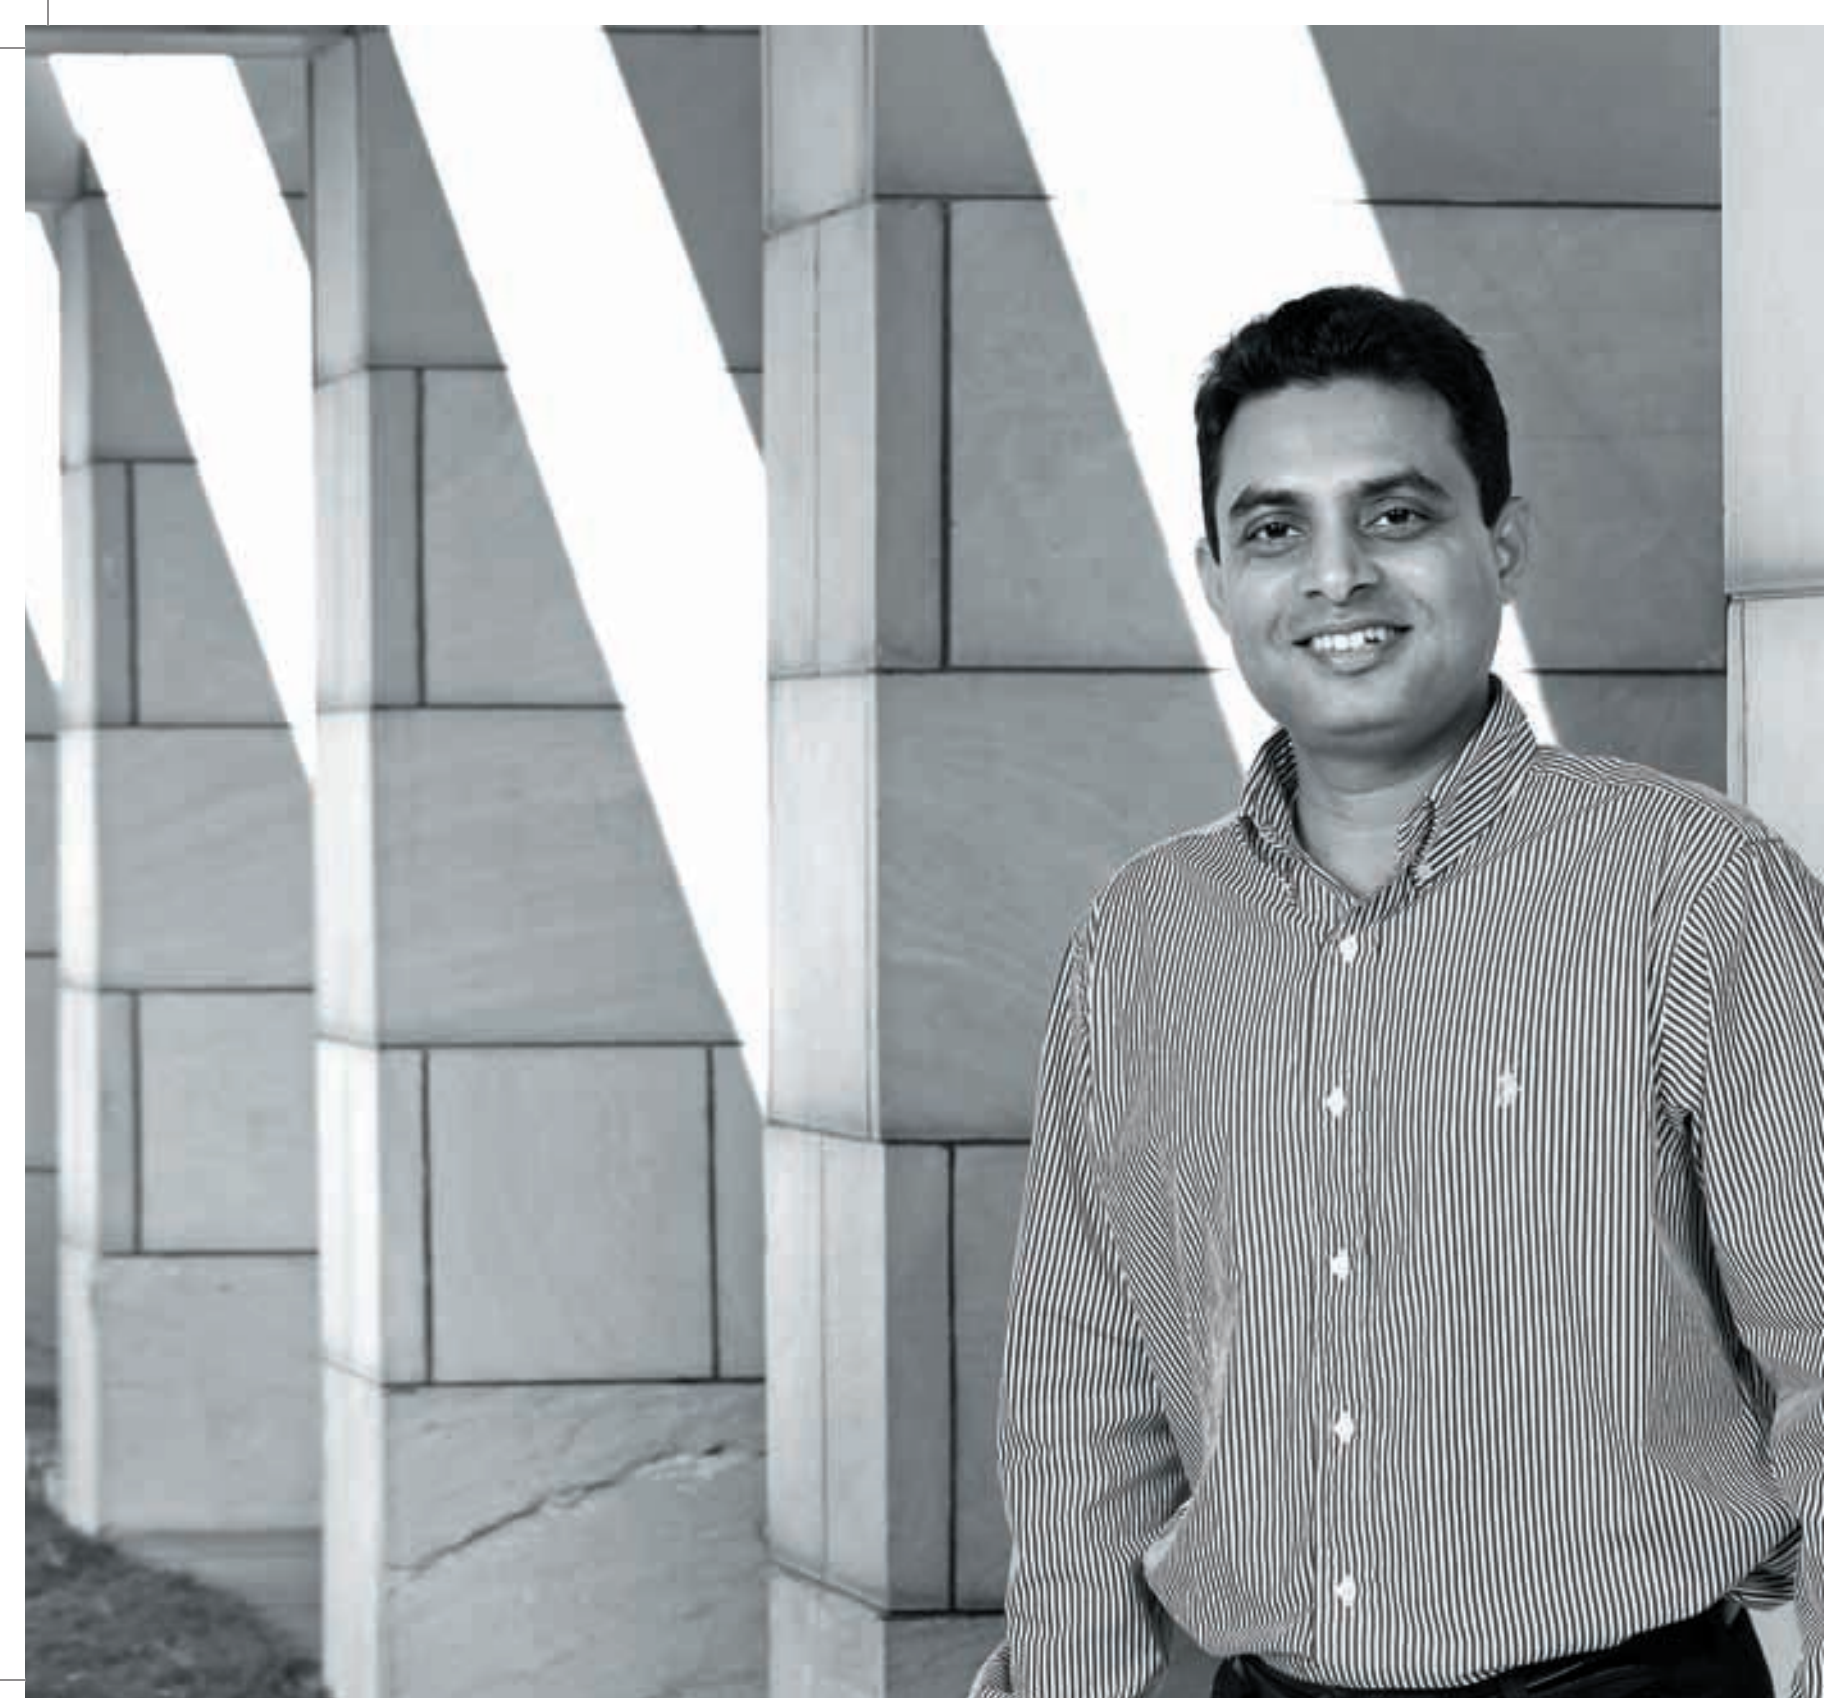

Academic life is exciting. We have the pleasure of working at the cutting-edge of knowledge in our fields. We influence the next generation of scholars and business leaders. Academic life offers autonomy. We choose our own research projects without a boss telling us what to do. We choose our work timings too. Being in beautiful campus environments around bright colleagues and enthusiastic students is another perk of the job. If you like thinking, and engaging in intellectual yet practical pursuits, this is definitely a career you should consider.

The quality of our resident faculty and their research is the backbone of our strength in offering the FPM. Our resident faculty members have published in the top journals in every field of business. Adding to this is the quality of our visiting faculty, which makes for a winning combination of top academics in a single school. In this new programme, you can expect to receive individualised attention—your success is our success. Our collaborations ensure that you will be able to visit INSEAD and other schools on exchange programmes, to get exposed to the best that these schools have to offer.

If you have any questions, please write to me at sanjay_kallapur@isb.edu.

SANJAY KALLAPUR

PROFESSOR OF ACCOUNTING
SENIOR ASSOCIATE DEAN, FACULTY AND RESEARCH

MESSAGE FROM DIRECTOR

It gives me immense pleasure to bring you on board with our Fellow Programme in Management (FPM) at the Indian School of Business (ISB). The programme aims to groom high-quality researchers capable of becoming faculty members in top-tier research-oriented business schools around the world. Our small class size ensures that you will enjoy individual attention and support for your scholastic ambitions. We have a rigorous mentorship programme, where our resident faculty will closely guide you through your course of study and work with you on research projects. This hands-on approach provides an invaluable educational experience and makes you better prepared to face the challenges of an academic career.

As Fellow Programme Scholars, you have the unparalleled opportunity to listen, learn and receive guidance from leading academicians from world-class universities. We are confident that your interactions with ISB's resident and visiting faculty, who come from renowned business schools across the world, will significantly enrich your ISB education and continue to guide you throughout your career. ISB also organizes seminars throughout the year, bringing the best of research and academia to the campus. Inputs from INSEAD will expose you to the best practices, skills and rigour the institution has to offer. Furthermore, you will have access to INSEAD's entire set of PhD courses.

The current batch comprises of outstanding individuals from diverse work, educational and cultural backgrounds. The binding element is the desire to grow and excel through extraordinary research work.

We thank you for your interest in the FPM and look forward to seeing you on campus in Fall 2012.

SIDDHARTH SINGH

DIRECTOR
FELLOW PROGRAMME IN MANAGEMENT

A black and white portrait of a woman with long dark hair, smiling. She is wearing a dark, short-sleeved, textured blazer over a light-colored top. The background is a blurred indoor setting with a window and a building visible through it.

"THE EXTENSIVE SUPPORT PROVIDES FOR HIGH QUALITY RESEARCH, INCLUDING ACCESS TO AN INTERNATIONAL RESEARCH ECOSYSTEM. OUR DOCTORAL STUDENTS WILL GET THE OPPORTUNITY TO LEVERAGE THIS SUPPORT AND PARTICIPATE EARLY ON IN COLLABORATIVE RESEARCH PROGRAMMES THAT CONTRIBUTE TO BOTH ACADEMIA AND BUSINESS PRACTICE."

DEEPA MANI
ASSISTANT PROFESSOR, INFORMATION SYSTEMS

FELLOW PROGRAMME IN MANAGEMENT

The Indian School of Business is embarking upon a Fellow Programme in Management (FPM) to groom promising young researchers to be innovative problem-solvers and thinkers. The FPM will successfully build upon the research strengths of faculty members at ISB, engaged as they are in cutting-edge research that is both academically rigorous as well as highly relevant to the needs of business.

In addition to training future researchers in business, the FPM will also serve to enhance faculty productivity, stimulating their motivation and creativity. Doctoral students will serve as research assistants and co-authors to faculty members, making it a win-win proposition for the students as well as the mentors. The improved research focus will lead to state-of-the-art research insights making their way into the classroom, in turn helping the School achieve and sustain its high global rankings. This two-way flow of ideas between teaching and research is, without exception, a feature of all research-oriented schools the world over.

The ISB FPM has been started with academic input from INSEAD, a global business school with an established track record of generating and disseminating research of the highest quality. The association is intended to help ISB design and deliver a truly exceptional FPM.

In summary, the FPM is very much in the spirit of the School's vision to be an internationally top-ranked, research-driven institution that grooms future leaders for India and the world. It is not only about our focus on academic research or placing our graduates world over as future faculty, it embodies our commitment to being a class apart and being innovative, thus ultimately enabling us to have a superior impact on academia as well as global business.

"AN INTERACTIVE PLATFORM FOR STUDENTS AND FACULTY ALIKE, TO PRESENT THEIR RESEARCH AT PREMIER CONFERENCES WORLD-WIDE AND TO GAIN GLOBAL VISIBILITY."

MILIND G. GHEM
ASSOCIATE PROFESSOR, OPERATIONS AND MANAGEMENT SCIENCE

A CAREER IN BUSINESS ACADEMIA

The best business schools achieve their standing by combining research, teaching and management practice. The best teachers among business school faculty members are usually those who bring the latest management theories and techniques to life in the classroom. With the centre of gravity of business activity shifting more and more towards the emerging markets, there is a great demand for faculty focusing on research issues relevant to the emerging economies.

The ISB FPM curriculum aims to achieve a balance between the latest academic research and an understanding of local realities in the emerging economies of the world. It will be reviewed and upgraded every year for theoretical rigour and practical relevance, in consultation with associate schools. Promising young researchers with inquisitive, creative and inspired minds, and a dedication to exploring research issues in business, will find the ISB Fellow Programme in Management uniquely attractive.

THE ISB FPM CURRICULUM AIMS TO ACHIEVE A BALANCE BETWEEN THE LATEST ACADEMIC RESEARCH AND AN UNDERSTANDING OF LOCAL REALITIES IN THE EMERGING ECONOMIES OF THE WORLD.

"WITH THE GROWTH IN EMERGING MARKETS, MANAGERS NOW FACE CHALLENGES THAT ARE UNIQUE TO THIS ENVIRONMENT. THE BUDDING RESEARCHER WILL NEED TO EXPLORE EMERGING MARKET ISSUES USING THE HIGH LEVEL OF RIGOR THAT HAS EVOLVED IN THE US ACADEMIA."

ADITYA JAIN
ASSISTANT PROFESSOR, OPERATIONS MANAGEMENT

THE ISB FPM EDGE

Challenging, comprehensive and global in scope, the Fellow Programme in Management aspires to develop researchers and academicians par excellence. ISB faculty members' own research expertise, and their strong belief in supporting, and mentoring doctoral students, is what will make this happen.

ISB boasts of a unique portfolio faculty model which consists of world-class resident and visiting faculty. Resident and visiting professors hold doctorates and are much sought after by businesses across the world. The current body of 49 permanent faculty has been handpicked from leading international business schools on the basis of research expertise and teaching acumen. Visiting faculty, drawn from top business schools across the world, complement the expertise of our resident faculty. The School provides a vibrant research environment for the visiting scholars and

research scholars it hosts every year, and in turn, benefits from their expertise.

The area leaders from our founding associate schools, The Kellogg School of Management at Northwestern University and the Wharton School at the University of Pennsylvania, actively participate in curriculum design and research conferences, and help in recruiting the best faculty. There are academic inputs from the London Business School, Sloan School of Management at MIT, and the Fletcher School of Law and Diplomacy at Tufts University as well. Our association with world-class business schools ensures that we are always in step with the latest innovations in global management education. Faculty exchanges, research collaborations, student exchange and curriculum development are various dimensions of our relationship with these schools.

ISB BOASTS OF A UNIQUE PORTFOLIO FACULTY MODEL WHICH CONSISTS OF WORLD-CLASS RESIDENT AND VISITING FACULTY.

“AN ACTIVE RESEARCH-ORIENTED RESIDENT FACULTY AND EXISTING COLLABORATION WITH INDUSTRY AND VISITING FACULTY FROM TOP RESEARCH SCHOOLS HELP CANDIDATES ACCOMPLISH THEIR GOALS OF CUTTING-EDGE RESEARCH.”

AMIT K NANDKEOLYAR
ASSISTANT PROFESSOR, ORGANISATIONAL BEHAVIOUR

THE INSEAD ADVANTAGE

INSEAD has the most successful PhD programme outside of North America. It has placed its PhD graduates from all areas at the top B-schools worldwide. INSEAD conducts PhD courses to its students across its two campuses in Fontainebleau and Singapore via video conferencing. India's location between the time zones of these two campuses makes it especially convenient for ISB to collaborate with INSEAD for video-conferenced coursework. In addition, ISB doctoral students will spend four months of their first year at INSEAD campuses, giving them an opportunity to bond with the INSEAD PhD students and faculty. In the more advanced stages of their programme, ISB doctoral students

ACADEMIC INPUTS FROM WORLD-CLASS BUSINESS SCHOOLS ENSURES THAT WE ARE ALWAYS IN STEP WITH THE LATEST INNOVATIONS IN GLOBAL MANAGEMENT EDUCATION.

can again, spend four months at INSEAD. This ensures that ISB doctoral students get the same quality of education as that of a proven programme such as INSEAD's.

“A DYNAMIC INTELLECTUAL ENVIRONMENT STIMULATES CREATIVE THINKING ESSENTIAL FOR TOP QUALITY RESEARCH. FURTHER, THE ECLECTIC MIX OF HIGHLY QUALIFIED FACULTY AND INTERNATIONAL SCHOLARS PROVIDES UNIQUE OPPORTUNITIES FOR DOCTORAL STUDENTS. THE FPM PROGRAMME WILL PRODUCE SOME OF THE BEST RESEARCHERS AND THOUGHT LEADERS OF THE WORLD.”

AMIT MEHRA
ASSISTANT PROFESSOR, INFORMATION SYSTEMS

PROSPECTIVE APPLICANT

Students typically should have an undergraduate/postgraduate degree in areas such as business, economics, engineering, computer sciences, mathematics, physics, or the arts. Irrespective of the field of study, applicants must possess a strong academic record and display creativity, self-motivation, and ingenuity in their prior academic and work experience. Moreover, the applicants must have a strong interest in pursuing a research and teaching career in academia.

AREAS OF SPECIALISATION

Currently, ISB offers the FPM in seven business disciplines: Accounting, Financial Economics, Information Systems, Marketing, Operations Management, Organisational Behaviour, and Strategy. Candidates applying for the FPM must choose their area of specialisation prior to commencing the programme. No change will be allowed once the students are admitted.

ACCOUNTING

The Fellow Programme in Accounting trains students to research contemporary issues in Accounting using the latest empirical research techniques. Students must have intellectual curiosity, an appreciation of institutional detail, and a strong aptitude for quantitative analysis. Prior training in accounting is not essential, although exposure to the implications of accounting (e.g. as a user of accounting information) is preferable. Faculty research interests include economics

of the auditing profession, corporate governance, earnings management, accounting conservatism, voluntary disclosure, and executive compensation. ISB Accounting faculty members have published in the top accounting journals. Professor Sanjay Kallapur is an editor of *The Accounting Review*, a top-ranked journal.

STUDENTS MUST HAVE INTELLECTUAL CURIOSITY, AN APPRECIATION OF INSTITUTIONAL DETAIL, AND A STRONG APTITUDE FOR QUANTITATIVE ANALYSIS.

FINANCIAL ECONOMICS

The Fellow Programme in Financial Economics will train students in a wide range of sub-disciplines within Financial Economics. ISB Finance faculty have wide ranging interests spanning corporate finance theory, empirical research in corporate finance, market microstructure, microfinance, as well as financial econometrics. Faculty have published in top-tier finance journals in diverse areas such as the design IPO mechanisms, promotions and internal labour markets, the links between bankruptcy codes and innovation, and information revelation in future markets. Candidates with undergraduate or postgraduate training in economics, mathematics, engineering, statistics, and other quantitative disciplines have an ideal background for doctoral studies in this arena.

“KNOWLEDGE REFLECTS THE ESSENCE OF EXISTENCE. CHOOSING TO DELVE IN IT FURTHER WITH THE RIGHT ENVIRONMENT AND EXTENSIVE SOURCES CAN ONLY RESULT IN THE CULMINATION OF A PERFECT FPM.” }

KRISHNAMURTHY SUBRAMANIAN
ASSISTANT PROFESSOR, FINANCE

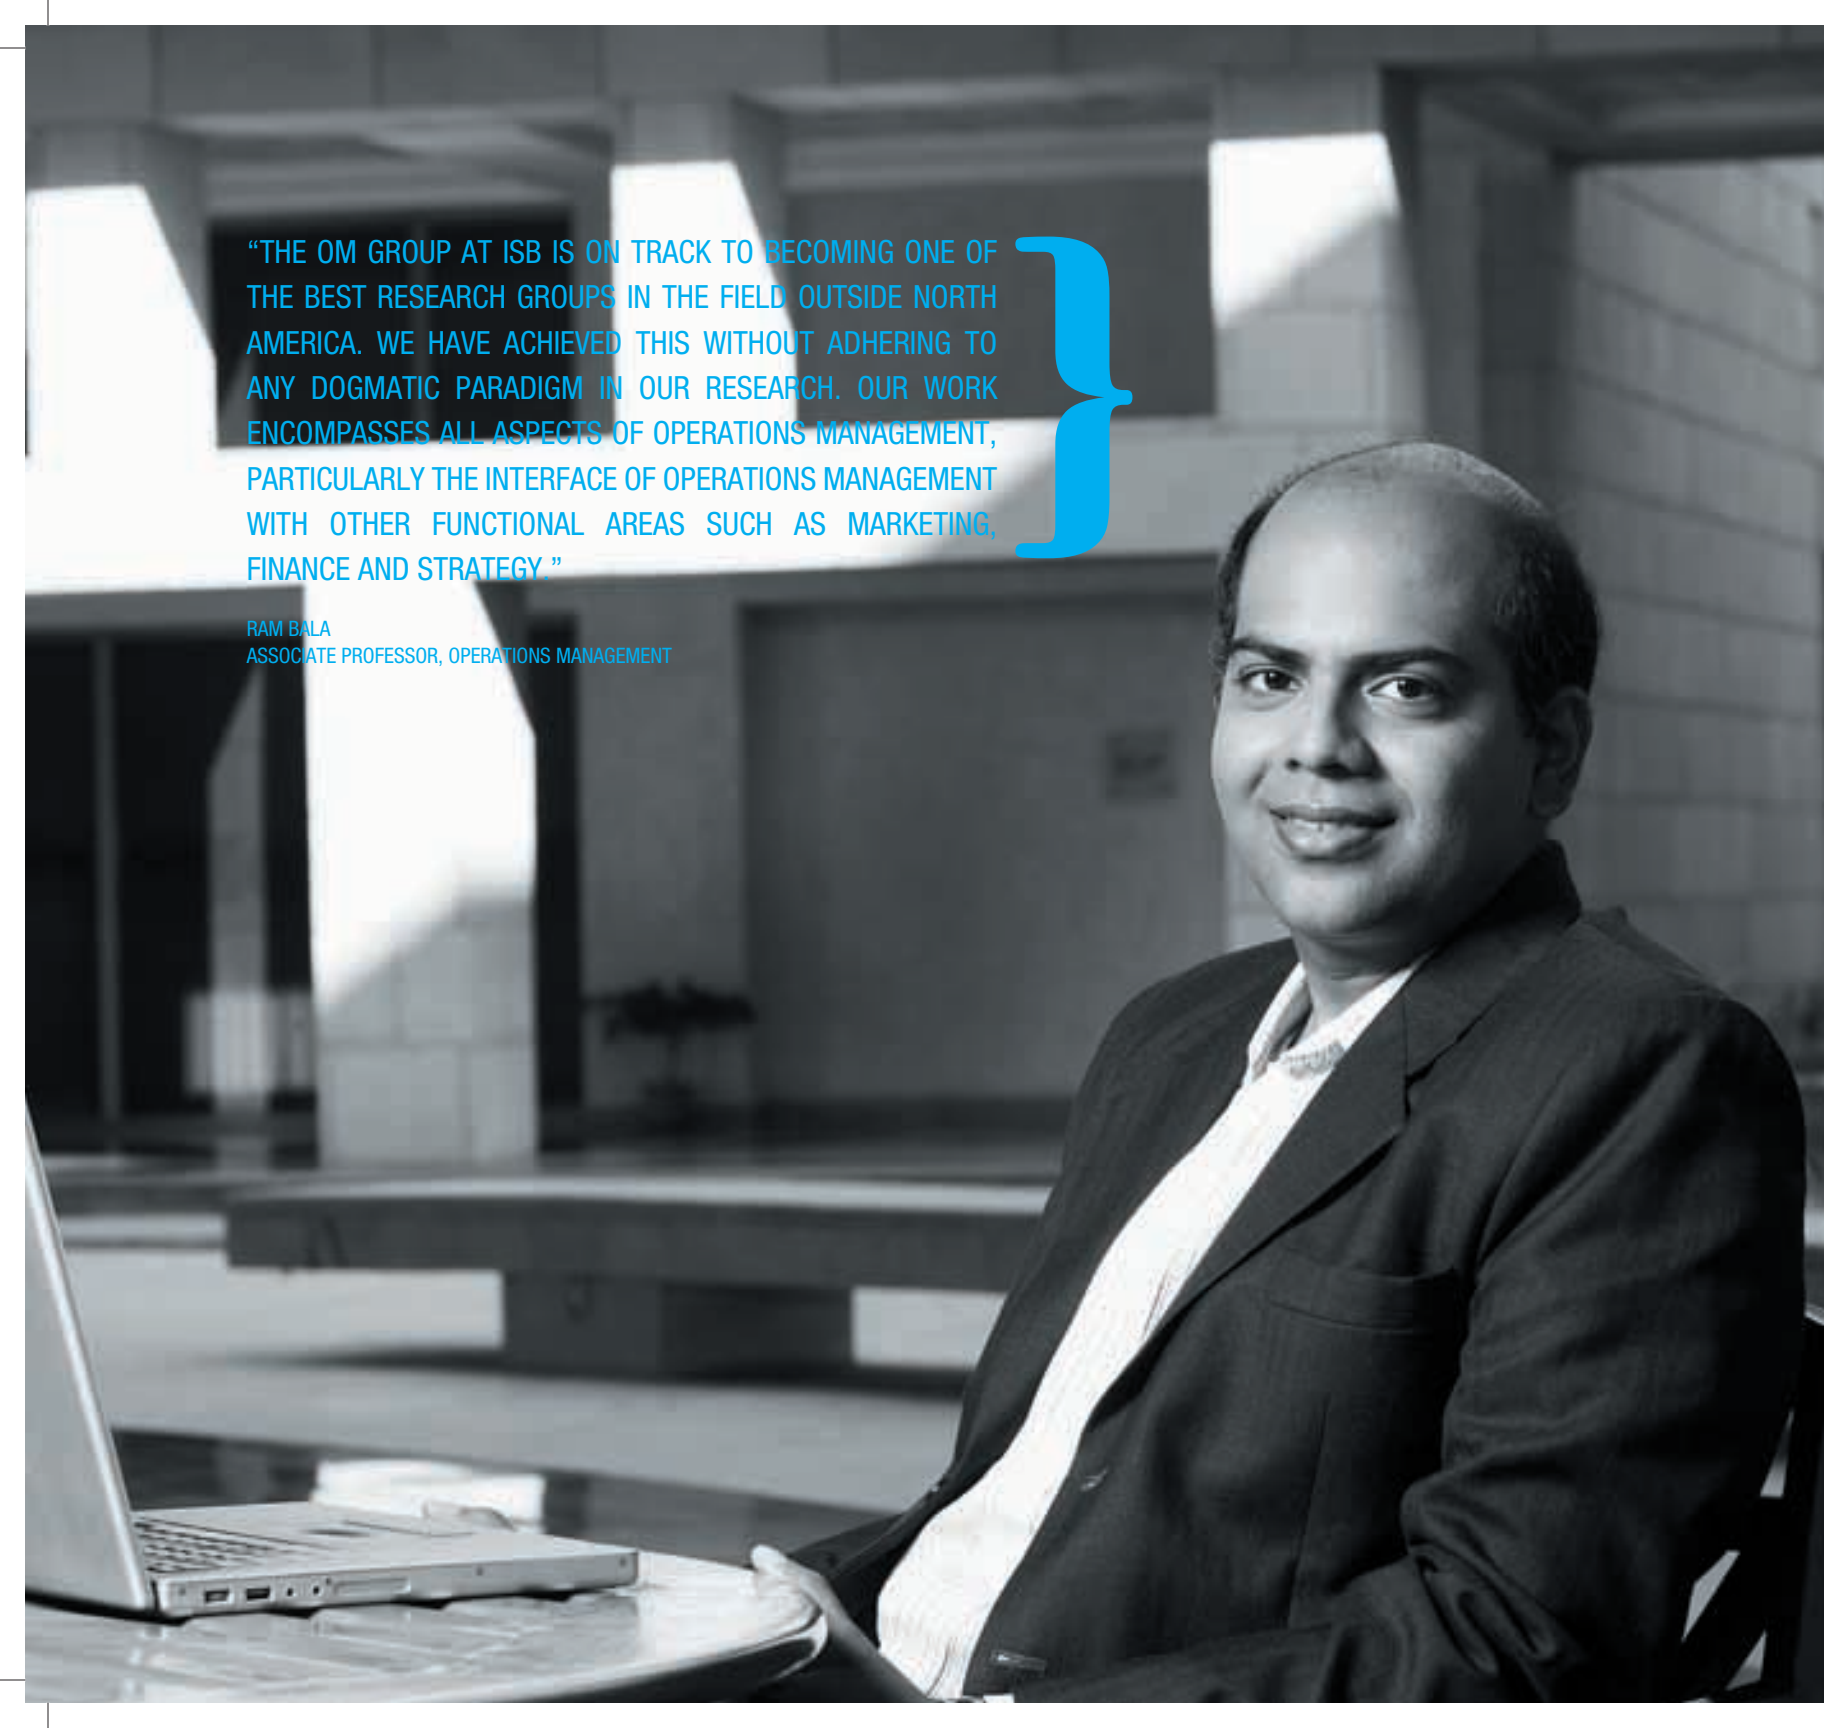

INFORMATION SYSTEMS

The faculty in the Information Systems (IS) area at ISB come from the top business schools in the world such as Carnegie Mellon, University of Texas, University of Rochester and Stanford University. They use quantitative tools such as game theory and econometrics, and extensively use economics and strategy as reference disciplines to study topics in software product planning and pricing, human capital development in knowledge-intensive organisations such as IT services firms, electronic commerce and internet advertising, organisation and value of outsourcing relationships, impact of IT on firm value and on society, and the organisation and value of social networks. The area faculty have established strong publication records in the top academic journals such as Management Science, Information Systems Research and Management Information Systems Quarterly. Several top academics from universities such as New York University, University of Minnesota and the University of Connecticut visit the IS area regularly to collaborate on research. The IS area also hosts an international academic conference in Information Systems every year. This conference regularly attracts the best of the researchers from the United States. This strong focus on research activities provides a broad exposure to students who are exploring research topics to define their areas of interest. Further, the constant availability of faculty with strong publication records in the top research journals of the world ensures in-depth mentorship.

MARKETING

Marketing is an interdisciplinary field that draws upon theory and methodology from a wide variety of sources, including psychology, sociology, mathematics, statistics, and economics. The discipline is fundamentally concerned with the description and prediction of decision outcomes that involve all aspects of the firm – customers, competitors, distributors, and business regulators. Marketing uses an eclectic mix of methods and theories to understand buyers’ perceptions and preferences, allocate marketing resources and develop game theory models for marketing strategy. The Fellow Programme in Marketing Management at ISB is designed to train students for careers in academia. Members of the Marketing faculty at ISB hold PhDs from top universities and are actively engaged in academic research.

THE FELLOW PROGRAMME IN MARKETING MANAGEMENT AT ISB IS DESIGNED TO TRAIN STUDENTS FOR CAREERS IN ACADEMICS.

“THE OM GROUP AT ISB IS ON TRACK TO BECOMING ONE OF THE BEST RESEARCH GROUPS IN THE FIELD OUTSIDE NORTH AMERICA. WE HAVE ACHIEVED THIS WITHOUT ADHERING TO ANY DOGMATIC PARADIGM IN OUR RESEARCH. OUR WORK ENCOMPASSES ALL ASPECTS OF OPERATIONS MANAGEMENT, PARTICULARLY THE INTERFACE OF OPERATIONS MANAGEMENT WITH OTHER FUNCTIONAL AREAS SUCH AS MARKETING, FINANCE AND STRATEGY.”

RAM BALA
ASSOCIATE PROFESSOR, OPERATIONS MANAGEMENT

OPERATIONS MANAGEMENT

The Fellow Programme in Operations Management is designed to train students to use quantitative tools and analytical frameworks from several disciplines to study managerial problems in areas such as supply chain management, service delivery, product development, transportation, retail, and manufacturing. The programme combines diverse analytical disciplines such as game theory, econometrics, optimisation, mathematical programming, probability and statistics, stochastic processes, the theory of algorithms, and operations strategy to immerse students in an intellectually stimulating environment conducive for high quality research. Faculty members in this area have doctoral degrees in operations management/operations research from top universities such as UCLA, Cornell, Rochester, and Georgia Tech. They have varied research interests in several areas/industries and are frequent contributors to internationally recognised, top-tier, academic journals.

ORGANISATIONAL BEHAVIOUR

The Fellow Programme in Organisational Behaviour is designed to emphasise the importance of individuals and teams as integral to modern organisations. The faculty regularly publishes in top-tier academic journals, wins awards, and presents their research in top international conferences. Research interests of faculty members include organisational citizenship behaviour, contextual work performance, positive (e.g. creativity, whistle-blowing)

CANDIDATES WILL ACQUIRE EXPERTISE IN A VARIETY OF DISCIPLINES THAT WILL ENABLE THEM TO DO CUTTING EDGE RESEARCH.

and negative (e.g. white-collar crime, corruption) deviance in and of organisations, teams, personality, interpersonal conflicts and relationships at work, and negotiations. Faculty members in organisational behaviour have PhD degrees from top universities such as University of Illinois at Urbana-Champaign, Iowa, Michigan State, and National University of Singapore.

STRATEGY

The Fellow Programme in Strategy seeks to train students to engage in research that addresses fundamental problems relating to business strategy. The strategic management track trains students to analyse a firm's response to its environment and competitors, and carry out research that enables an understanding of the foundation of competitive advantage. It also allows scholars to acquire expertise in a variety of disciplines that will enable them to do cutting-edge research in areas such as competitive strategy, innovation, global strategy, organisation theory and entrepreneurship. Faculty members have PhD degrees from top universities such as Carnegie Mellon University, Indian Institute of Management, London Business School and Ohio State University. They frequently contribute to internationally recognised top-tier academic journals.

FELLOW PROFILES

PRATIK GOEL

FPM FOUNDING BATCH (FINANCIAL ECONOMICS)

MSC (FINANCIAL RISK MANAGEMENT), BUSINESS SCHOOL-ECONOMICS, UNIVERSITY OF GLASGOW
BA (ECONOMICS), SHRI RAM COLLEGE OF COMMERCE, UNIVERSITY OF DELHI

A few finance-based courses in Pratik's final undergraduate year at the prestigious Shri Ram College of Commerce kindled his interest in finance. After graduation, he completed his postgraduation from the highly research-oriented University of Glasgow. He was also awarded the "Class Prize" for outstanding overall performance. His thesis comprises an analysis of the Momentum Investment Strategies, along with an investigation of the possible reasons behind such observed abnormal gains. His research experience at Glasgow and his passion for teaching motivated him towards a career in academia. His current research interests focus on Asset Pricing and Behavioural Finance. Pratik is also actively involved in various social initiatives and very recently, served as a volunteer instructor in the Teach India Campaign, which aims to increase the employability of unemployed youth in urban slums by imparting them with job-related skills.

SAIPRIYA KAMATH

FPM FOUNDING BATCH (FINANCIAL ECONOMICS)

BE (ELECTRONICS & COMMUNICATION ENGINEERING), VISVESWARAIAH TECHNOLOGICAL UNIVERSITY

Saipriya completed her Bachelor's degree in engineering and joined Accenture, where she worked as a business analyst for one of the leading insurance providers in USA and UK. Her interest in the areas of finance and insurance was piqued during this period in Accenture. She decided to improve her knowledge by completing certifications offered by National Stock Exchange, India. Later, she decided to pursue her interest in the field of education and joined T.I.M.E. one of India's leading education provider for competitive exams. She is highly interested in furthering her knowledge in the field of mathematical finance. During her leisure, she enjoys going out for long runs and volunteering in charity organisations.

HEMANT KAKKAR

FPM FOUNDING BATCH (ORGANISATIONAL BEHAVIOUR)

MBA (GENERAL MANAGEMENT), INDIAN INSTITUTE OF TECHNOLOGY, KANPUR
BTECH (BIOTECHNOLOGY), VIT UNIVERSITY

During his undergraduate study, Hemant spent six months at National Centre of Biological Sciences, Bangalore, India where he developed a method to measure the olfactory learning and memory in *Drosophila melanogaster* (fruit fly), kindling in him an interest in behaviour studies. Upon graduation, he worked at a leading IT company, where his job was to implement a knowledge management tool that could be utilised to encourage learning and collaboration across the organisation. He worked there for two years, first as an engineer and then as a technical consultant. During his studies at IIT Kanpur, apart from excelling in regular coursework, he also worked with faculty on research projects. Along with two of his professors, he has jointly written a research paper on certain aspects of organisation structure and culture that fosters innovation. His current interests include group dynamics, individual behaviour, team learning and innovation.

ISB MOHALI CAMPUS

THE FPM STRUCTURE

The programme structure for the first year is similar to that of INSEAD's PhD programme, with students required to complete extensive course work across the basic disciplines of management. The FPM will have one intake every year in September. The academic year is divided into five terms, each of two months in duration. During the first year, ISB's doctoral students will spend their time on the ISB campus, and join INSEAD's PhD students, from the Singapore and Fontainebleau campuses, via videoconferencing for lectures.

In addition, specific FPM courses may also be offered at ISB campus.

Application opens : September 15, 2011
 Application closes : January 15, 2012
 Admission announcement : March 31, 2012

STAGES OF PROGRESSION IN THE FPM

YEARS IN THE FPM	MILESTONES
Year 1	Complete core course (combined with INSEAD) Four months at INSEAD campuses
Year 2	Area specific course work (combined with INSEAD) Four months at INSEAD or other associate schools Candidates begin work on a research paper on their own Write FPM qualifying examination at the end of year 2
FPM candidacy	Based on the performance in core courses, performance in the FPM qualifying examination, research paper, potential to conduct scholarly work, the FPM committee determines a student's admittance to FPM candidacy.
Year 3	Candidates work on additional area-specific coursework if required Identify dissertation committee members and research advisor Identify a dissertation topic, complete preliminary research work on the topic, and work on a dissertation proposal Submit the proposal for approval to the dissertation committee by the end of the third year
Advanced FPM candidacy	Based on the approval of the dissertation proposal candidates move to advanced FPM candidacy
Years 4 and 5	Candidates work on their dissertation Based on the dissertation defence and completion of subsequent revisions, and the FPM committee's recommendation, candidates are granted the Fellowship.

RESIDENCY REQUIREMENTS

This is a fully residential, full-time programme. Students will be expected to spend a minimum of three years in residence.

CERTIFICATION

Following the recommendations of the FPM Committee, ISB Dean will grant the Fellowship on behalf of the ISB faculty.

ADMISSIONS

GENERAL REQUIREMENTS

ISB aims to bring together individuals from a wide variety of backgrounds, nationalities and educational experiences. The common denominators are superior academic credentials and display of consistent intellectual prowess. Excellent written and verbal communication skills are essential. To be eligible, candidates must hold a university degree from an accredited academic institution. Above all, candidates need to possess both the ability to engage in high-quality research and the commitment to be an academician at an international level. Candidates will be assessed on the basis of outstanding intellectual ability, motivation, faculty recommendations, and personal characteristics required for an international academic career. There is no particular requirement concerning fields of study at the undergraduate level, but standard postgraduate entry tests (GMAT and GRE) will be used to assess general ability and, if necessary, level of English.

APPLICATION PROCEDURE

The deadline for the application is January 15, 2012 for the academic year starting in September 2012. An interview may be required. Candidates would be advised of

admissions decisions by March 31, 2012 and the programme will commence in September. All applications should be submitted online at www.isb.edu. A complete application must include:

- The application form (including a statement of purpose and photograph)
- Certified copies of all university degrees/diplomas
- Official transcripts of grades
- GMAT or GRE score report
- TOEFL score report (for applicants whose language of instruction at the undergraduate level is not English)
- Three letters of recommendation from faculty or scholars on the applicant's academic ability and potential for research and teaching
- Application fee (INR 3000) to cover administrative costs

TEST REQUIREMENTS

All applicants are required to take one of two tests: either the Graduate Record Examination General Test (GRE), administered by the Educational Testing Service (ETS), Princeton, USA; or the Graduate Management Admission Test (GMAT), administered by Pearson VUE, Boomington, USA. Both tests may be taken at various locations around the world. Applications will not be considered without a test score.

FINANCIAL ASPECTS / SCHOLARSHIPS

TUITION FEES

Although there are tuition fees for the first two years of the programme and dissertation fees after advancement to candidacy, until graduation, almost all students will be offered full tuition scholarships.

LIVING EXPENSES

Financial assistance through ISB scholarships will be available on the basis of demonstrated need and merit. A full scholarship will provide not just for tuition fees but also a monthly living allowance of about INR 40,000 and free housing on campus. A supplement will be given to cover expenses during the student's residence at INSEAD or other associated schools. ISB scholarships will be available to all

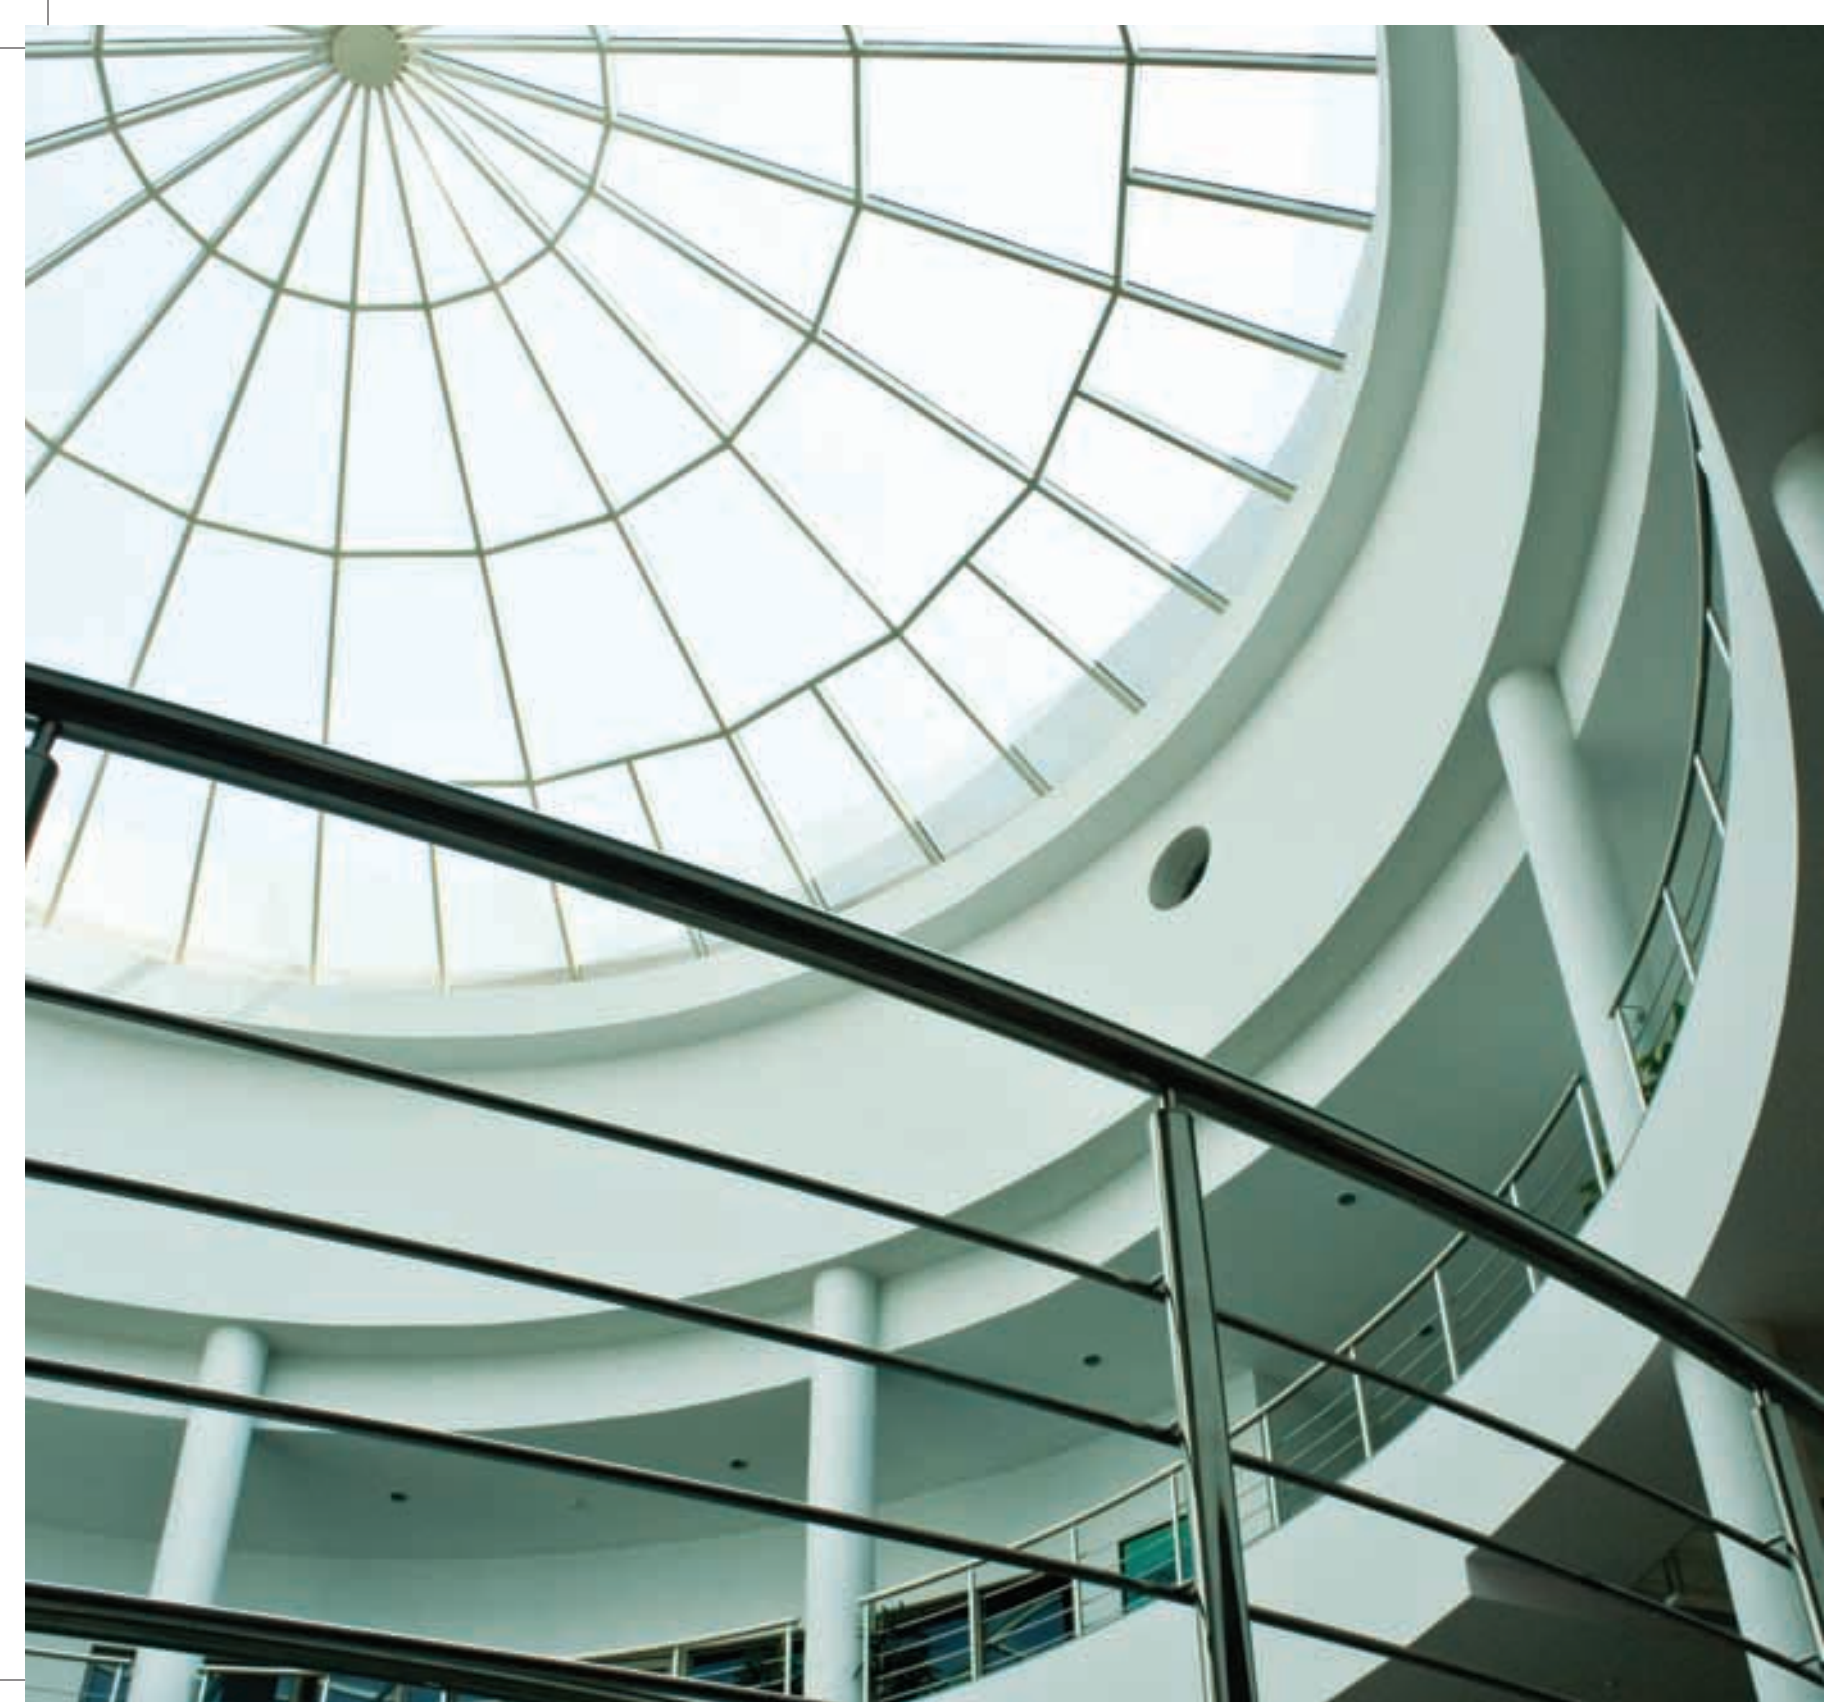

the doctoral candidates during the first five years of studies (for a full 12 months) and renewed annually depending on satisfactory progress.

MEDICAL INSURANCE

It is mandatory for all students and their dependents living on campus to have medical insurance. ISB will arrange to purchase a group medical insurance for all students and their dependents. The premium for this will have to be paid by students at the time of registration. The premium is approximately in the range of INR 1,300 to 4,000, depending on the age of the insured – these amounts are approximate and are subject to change.

ISB OFFERS GENEROUS FUNDING AND FINANCIAL SUPPORT TO ALMOST ALL FPM STUDENTS IN THE FORM OF SCHOLARSHIPS AND LIVING ALLOWANCES.

RESEARCH AND LEARNING RESOURCES

ISB's impressive infrastructure makes for a world-class learning environment. Spread over 260 acres, the completely Wi-Fi enabled campus has state-of-the-art air-conditioned lecture theatres, an excellent library, video conferencing facilities, etc. The heart of the campus is the Academic Centre, which houses the lecture theatres, classrooms, faculty offices, services and the auditorium.

The Learning Resource Centre (LRC), towering in the middle of the Academic Centre, hosts the library and IT-facility offices. The e-resources and online databases currently available at the LRC are among the best in any academic facility. The LRC's collection spans nearly 39,000 books, 360 print journals, access to over 50 online databases, including over 2,000 e-journals, and 5,300 AV resources.

All doctoral students will be given laptops, with integrated video conferencing devices to communicate across campuses to facilitate meetings and classes. This will also enable

students to attend specialised classes that are conducted at our associated institutions.

CAMPUS ACCOMMODATION

The Student Village comprises fully air-conditioned serviced apartments, with elegant contemporary furniture and fittings, a kitchenette, television with cable connection, etc. The ISB offers a conducive environment to families living on campus. Dining, housekeeping, courier and banking facilities are provided, in addition to a wellness centre, grocery store, travel desk and bookstore. The School ensures that all the needs of students are addressed, allowing them to focus entirely on learning. ISB offers excellent recreational

facilities – a swimming pool, fitness centre, and courts for badminton, squash, table tennis, lawn tennis, volleyball and basketball. There is also a play area for children and a toddler's room. The campus offers enchanting walks and pathways through quaint rock formations that lead to vantage points for viewing sunsets.

SPREAD OVER 260 ACRES, THE COMPLETELY WI-FI ENABLED CAMPUS HAS STATE-OF-THE-ART AIR-CONDITIONED LECTURE THEATRES, AN EXCELLENT LIBRARY, VIDEO CONFERENCING FACILITIES, ETC.
