

NEA IndoUS Ventures is a leading venture capital firm which provides early and mid-stage funding to new or growing businesses in India. The team comprises experienced entrepreneurs and executives who understand the model of incubating ideas and transforming them into successful enterprises.

NEA IndoUS Ventures understands that entrepreneurs are driven by an inner urge to foster change and build enduring companies. These entrepreneurs create path-breaking ideas, enable inorganic growth, and work to transform society for the better. They believe entrepreneurship is not about qualifications or past track records; visionary entrepreneurs can emerge from all walks of life.

It is IndoUS Ventures privilege to fund these entrepreneurial ideas and offer collaborative partnerships. IndoUS Ventures invests in tomorrow's business leaders, explosive new markets and enterprises that will transform the future.

IndoUS Ventures fosters close partnerships with their portfolio companies, and builds strong relationships based on integrity, trust and mutual respect. They are committed to redefining Indian entrepreneurship and are excited about India's potential to be an innovative player in the global market. Their approach to investing and their philosophy of building successful companies makes them the ideal partner for entrepreneurs.
