

Indian School of Business
Positions in Information Systems Area- Academic Year 2025-2026

The Indian School of Business (ISB) invites applications for full-time tenure track positions in Information Systems at all levels (Assistant, Associate, or Full), beginning in Fall 2025. The main responsibilities will include conducting impactful, high-quality research at the intersection of Business and Technology, teaching at graduate levels, participating in course and curriculum development, and providing service to the institution and the Information Systems academic community. Qualified candidates should possess:

- A Ph.D. in Information Systems (IS), Economics, Computer Science, or a related field by the start date.
- An excellent record of published research in esteemed journals and recognition within the Information Systems academic community, appropriate to the position level
- Demonstrated excellence in teaching

We invite applications from candidates whose research and teaching interests not only align with but also enhance our current strengths while venturing into innovative and dynamic fields. We particularly encourage those focusing on the economics of information systems, exploring topics such as digital transformations, the digital economy, and artificial intelligence (AI), to apply. Additional areas of interest include trustworthy AI, emerging technologies and business models, as well as technology governance and regulations.

Moreover, we strongly welcome candidates from disciplines outside Information Systems such as Computer Science, Computational Social Sciences, Economics, and related fields that examine the broader impact of technology on society. Your unique perspectives and expertise could significantly contribute to our academic community.

Tenure-track and Open Rank Qualifications/Requirements:

Applicants for the tenure track must have a Ph.D. from a reputed institution, excellent research and teaching skills, and a demonstrated ability to produce scholarly work at the highest level. They must also be capable of becoming outstanding teachers. Applicants for senior appointments should have published extensively in top-tier refereed journals and have a proven track record of successfully mentoring junior faculty. **This position will start in the academic year 2025-2026.**

ISB follows a tenure system similar to the top schools in the United States. The compensation and teaching loads are competitive (typically, faculty complete their teaching requirements in 10-12 weeks). Research support at ISB includes excellent infrastructure, research funding, and research assistance that are comparable to the best business schools in the world.

Applying to ISB:

Interested candidates can submit their applications on Interfolio: <http://apply.interfolio.com/157764>

Documents required as part of the application: Curriculum vitae (CV), job market paper, research statement, teaching statement, and three (3) letters of recommendation (the letters can either be uploaded directly on Interfolio, or emailed to IS_recruiting@isb.edu with a copy to

vandith_pamuru@isb.edu. Optional supplementary materials may include other published/working papers, and available teaching evaluations.

Deadline for application: Applications will be processed on a rolling basis. Early Applications are encouraged. The school faculty will be attending and available to meet at ICIS, WISE, and WITS 2024 conferences in Bangkok, Thailand.

Please direct any recruitment-related queries to Vandith Pamuru (vandith_pamuru@isb.edu)

About ISB

The Indian School of Business (ISB) was established in 2001 in response to the growing demand for a premier business school in Asia. It was conceived through the collaborative efforts of globally renowned business leaders, entrepreneurs, and academicians who identified the critical need for leadership in emerging economies. Recognizing the importance of cultivating young leaders with a global perspective, ISB was established as a not-for-profit, independent, research-driven business school that has two state-of-the-art campuses in Hyderabad and Mohali, dedicated to advancing business education and research. Since 2008, ISB has consistently ranked among the top business schools globally in the Financial Times Global MBA rankings. **The latest [Linkedin MBA rankings](#) featured ISB at 6th position globally across all schools.**

ISB offers a diverse array of programs tailored to individuals with varying levels of experience and career backgrounds. Its flagship offering, the one-year Post Graduate Programme (PGP) for young executives, is equivalent to the two-year MBA program at leading Indian business schools. For seasoned professionals, ISB provides part-time programs, advanced courses focused on specific functions, and a program dedicated to family businesses. Additionally, ISB's doctoral-equivalent Fellow Programme in Management (FPM), Executive Education, and ISB Online platforms cater to professionals at all career stages.

ISB's distinctive faculty model blends accomplished resident and visiting faculty from top universities in the USA, Europe, Singapore, and India, all with publications in leading academic journals. Our visiting faculty includes members from founding partner schools—The Wharton School, Kellogg School of Management, and London Business School—as well as The Fletcher School and other prestigious institutions. Senior faculty from these partners serve as Area Leaders, shaping ISB's academic programs and research in collaboration with resident faculty. ISB fosters a vibrant research environment and supports numerous visiting scholars annually. Through the Centre for Learning and Teaching Excellence, ISB offers robust support for teaching and pedagogical innovations, assisting both new and experienced faculty to become effective teachers as well as explore new technologies and methodologies. The Information Systems department at ISB consists of seven tenured and tenure-track faculty members and one teaching-track faculty member.
