Izu Singh

Current Affiliation: Director at Kabir Infra

Work Experience: 7 Years

ALP Topic: Feedback Mechanism for Tollways Performance Index Evaluation

Current Employment & Responsibilities- Founder & C.E.O at Greenify Technologies (www.greenify.com) October 2015 to Present

Education - My education in Electronics, Green Technologies & Green Rating Systems, clubbed with a rich experience of sustainable steel buildings for eight years, has inspired us to go beyond just buildings & expand our domain to a host of Environment Friendly Technologies like creating Zero-Net-Energy-Buildings (ZNEB), Bio-digestible Toilets, Solar Power Solutions, Solar Heating Solutions, Green Walls and Geo-thermal Air Conditioning to start with. My Responsibilities is to manage the overall organization & take the Brand-Greenify to the next level by constantly scaling it up in India, and eventually take it global.

Previous Assignments- Founder & Owner at ABRe-Alternative Building Resources (www.abrebuildings.com) June 2007 to September 2015

After taking a 3-year intensive experience in Pre-engineered Steel Buildings/Structures construction projects, my dream came true when I launched my first brand. This is my passion. We have set up a really strong client base for Pre-Engineered Steel Buildings projects under the brand "ABRe" in a short span of time, which led us to enter the domain of construction of architectural Steel Buildings for all applications like residential, hospitality, institutional, commercial, etc. We also started constructing 'Sustainable' or 'Environment Friendly' Steel buildings.
